United Farmers Cooperative has used AgVantage Software for over 15 years. We are a very diversified company and use most of the packages AgVantage has to offer as well as several interfaces. I am very pleased with the direction AgVantage Software has taken to incorporate customer driven enhancements into their new releases. I am satisfied with the service and support we receive.

I like the fact that AgVantage Software is willing to work with other software vendors to develop interfaces that we can incorporate into our overall company's data management. They have been very progressive to keep up with the latest technologies to be able to offer new opportunities and options with software and hardware to their customers.

AgVantage Software has worked hard to provide the products we need to help us grow our business and become as efficient as we can. They have been a good business partner for United Farmers Cooperative.

Lorie Reinarts, CFO
 United Farmers Cooperative
